Allergen Warning: The following products contain **soy**

Individuals with soy allergies should use caution when using the following products, as they may contain ingredients derived from soy that could potentially trigger allergic reactions in sensitive individuals.

Dàn Dòu Chǐ (淡豆豉), commonly known as prepared soybean, is a medicinal substance used in Chinese medicine and is derived from whole soybeans.

Ē Jiāo (阿胶), **Guī Bǎn Jiāo (龟板胶)**, and **Lù Jiǎo Jiāo (鹿角胶)** are traditional Chinese medicines that are processed using soybean oil. Because this soybean oil is refined and expeller-pressed, it is highly unlikely to contain the soy proteins that typically cause allergic reactions. However, some individuals may be sensitive to even trace amounts of soy protein that could potentially be present.

Product

Dan Dou Chi

He Shou Wu (zhi)

Yin Qiao San, extract powder

Yin Chiao Chieh Tu Tablets

Glycine max seed (prepared)

Polygonum multiflora root (prep.)

Yin Qiao San

Yin Qiao Jie Du Pian

Item No.

過敏原警告： 以下產品含有大豆

大豆過敏警示：對大豆過敏的人士在使用以下產品時應謹慎，因為這些產品可能含有源自大豆的成分，並可能引發敏感人群的過敏反應。

淡豆豉，又稱“制豆豉”，是中醫藥中使用的一種藥材，由整粒大豆發酵加工而成

阿膠、**龜板膠**和**鹿角膠**在傳統加工過程中會使用大豆油。由於所使用的大豆油為精煉壓榨油，其中通常不含會引起過敏反應的大豆蛋白，因此導致過敏反應的可能性極低。然而，部分人士可能對極微量的大豆蛋白仍然敏感。

產品
